**Henan BEBON international co.,ltd****Steel plate for for Boiler Pressure Vessel DIN17135 A ST 52 steel**

A ST 52 steel plate, DIN17135 A ST 52 steel plates is a kind of material for boiler and pressure vessel steel. DIN17135 A ST 52 steel plates is characterized by a minimum yield strength of 280-355 MPa and by good weldability, so A ST 52 steel is mainly used to for manufacturing boilers, pressure vessels and pipes transporting hot liquids. the following are DIN17135 A ST 52 steel plate's Chemical composition and mechanical properties.

If you are looking for Chinese A ST 52 steel supplier, if you want to know FEE355KG,KW, KT steel price, please be free to contact us.
