

Steel plate for for Boiler Pressure Vessel NFA 36-205 A 48 CP

A 48 CP steel plate, NFA 36-205 A 48 CP steel plates is a kind of material for boiler and pressure vessel steel. NFA 36-205 A 48 CP steel plates is characterised by a minimum yield strength of 220 - 295 MPa and by good weldability,so A 48 CP steel is mainly used to for manufacturing boilers, pressure vessels and pipes transporting hot liquids.the following are NFA 36-205 A 48 CPsteel plate's Chemical composition and mechanical properties.
