

**DIN 17102 TStE355 steel plate/sheet for fine-grain structural steels, normalised rolled steels**

DIN 17102 TStE355 steel plate/sheet, DIN 17102 TStE355 steel plate/sheet, under DIN standard, we can regard TStE355 steel plate/sheet as fine-grain structural steels, normalised rolled steels. DIN 17102 TStE355 is mainly used as fine-grain structural steels, normalised rolled steels.

DIN 17102 TStE355 steel plate/sheet is fine-grain structural steels, normalised rolled steel plates/sheets specially manufactured for different types of welded constructions, from base material, resistant to heat and tough for low temperatures. And it can be used for pressure boilers, storing tanks both movable and standing, high pressure pipes, bridges, masts, tethers, etc.
